

PHOTOGRAPHY AND VIDEO CAMERA POLICY

Our approach

Consistent with the ECB's Photography and Video Camera Guidelines, Dulwich CC (**the club**) is keen to promote positive images of individuals playing cricket and there is no blanket prohibition on the use of photographic or videoing equipment at games or training sessions. We endeavour to ensure that streams, photos and recordings of DCC cricket are captured and used appropriately across the game.

Images and, potentially, audio recordings of individuals are personal data and the club will comply with data protection law (including the Data Protection Act 2018 and the UK GDPR) when live streaming, photographing or recording them, using them or sharing them.

Live streaming of games

The club is introducing live streaming of certain matches from the 2024 season. The club officer responsible for streams, photos and recordings is Chris Lindner and you can contact him via cjlinder56@gmail.com.

We adhere to the following when Livestreaming cricket at the club:

- Streaming will only take place when it has been approved by an official of the club
- If the club plans to live stream from any cricket match, we will notify the League / other side our intention and secure permission at least 48 hours in advance of the streaming. Permission will be sought from both teams, the umpires and scorers. If sufficient notice and permission is not given, the match will not be live-streamed
- We will inform spectators and any other persons attending the match when live streaming is taking place by displaying a clear and prominent notice

Our guidelines for photography and filming of children and young people

Parents / carers should not be prevented from taking pictures of, or filming, children, young people and players. These are normal family practices and help mark milestones in a player's life and can enhance a player and his or her family's enjoyment of cricket significantly.

However, photographs/images are not to be taken at matches or training without the prior permission of the parents/carers of the child. Permission can be granted by the coach based on parental consents provided during the annual registration process.

Children should be informed a person will be taking photographs.

The children should be informed that if they have concerns they can report these to the coach or team manager.

Concerns regarding inappropriate, or intrusive, photography should be reported to the Club Safeguarding Officer.

We may post matchday pictures of games or teams on our website or social media accounts. Where we do so, we will use our best endeavours to ensure we obtain permission from team members and (for junior players) their relevant parents, guardians or nominated responsible adult on the day, and will not post details of any child's name.

You should be aware that for league matches, both senior players' and children's names may appear on scorecards in the ECB's Play-Cricket system so that it may be possible for people to try and match names and dates.

If a match involving juniors is to be live-streamed consents will be required 48 hours before the match and held in paper or electronic format. Where the player (or other person) is under 16, the consent will be from the parent / carer of that player / person. Where a child is over 16, we will ensure that their parent / carer is aware of what is happening and request the child's consent.

If you have any particular concerns about the potential for you or your child to be recognised from photographs or films, or for any other reason wish to withhold consent for photographs and filming to take place, please let us know so that we can endeavour to put appropriate protections in place.

Information regarding the use of video equipment as a coaching aid is included in the club's privacy notice.

If you or your child has any concerns about any photography taking place at club training or on matchdays, you should raise these with your team captain (senior players) or age group manager (junior players), and where there are any safeguarding concerns with our Safeguarding Officer.

All team captains and age group managers are required to make themselves aware of good practice guidance set out in the [ECB Photography and Video Camera Guidelines](#).

Policy approved by Dulwich Cricket Club Executive Committee on 20 March 2024
